

*The Scientific Association Dedicated to Analytical Excellence®*

September 26, 2011

Mr. Ronald Johnson  
bioMérieux, Inc.  
595 Anglum Rd, Hazelwood  
MO 63042

Dear Mr. Johnson:

We are pleased to inform you that the Methods Committee on Microbiology adopted the method **VITEK® 2 Gram negative (GN) Biochemical Identification Method** for the identification of Gram negative bacteria as Official First Action on September 16th, 2011. The method was assigned *Official Methods*<sup>SM</sup> number **2011.17**. A notice of the adopted method will be published in the AOAC magazine, *Inside Laboratory Management*. AOAC staff editors will prepare the manuscript for publication in the *Journal of AOAC INTERNATIONAL*. The method will be published as part of the collaborative study and will be included in the *Official Methods of Analysis* online at <http://eoma.aoac.org/> and in the next printed edition.

AOAC would like to take this opportunity to thank you for all your contributions in the development of this method.

Sincerely,

Robert Rathbone  
Senior Director of Publications,  
*Official Methods*<sup>SM</sup> and *Peer-Verified Methods*<sup>SM</sup> Programs  
AOAC INTERNATIONAL
